<http://ipm.ncsu.edu/pesticidesafety/>

North Carolina Agricultural Education Certification Program

Private Pesticide Applicators License

North Carolina Agricultural Education Courses with content in this certification area:

Agricultural Production I and II

Horticulture I and II

There are two classifications of certified applicators: private and commercial. To be certified in North Carolina, applicators must score 70 percent or more on the appropriate closed-book, multiple-choice exam or exams. Attendance at a pesticide school is not required for certification. Additional information can be found at: <http://pesticidesafety.ces.ncsu.edu/wp-content/uploads/2014/04/Licensing-and-Certification-Fact-Sheet.pdf> . To register for an exam, call the NCDA&CS. Exam dates and locations are listed on the Pesticide Safety Education Program and the NCDA&CS website at: <http://ipm.ncsu.edu/pesticidesafety/> . The cost of for certification is \$10.00.

Candidate must bring to the examination a No. 2 pencil, calculator and valid photo ID.
